Donna and Jennifer,

I am letting you both know that I have been diagnosed with a serious illness. I was to begin treatment on Monday which I delayed until this weekend as the side effects can be extensive and unknown per individual. I had to be in work this week due to an overwhelming work load and the need to meet my sales tax deadline so I delayed my medication. I am hopeful that I will be lucky and have none or few of the many side effects.....fingers crossed! If there is any issue come Monday I will Jennifer know.

Kelli
